## FOREWORD

The Public Administration Act (R.S.Q., c. A-6.01) requires the Chair of the Conseil du trésor to table in the National Assembly the expenditure budget for all departments and agencies. This sets out the estimates of the appropriations required over the course of the coming fiscal year, as well as the annual expenditure management plans prepared by each of the ministers.

The Chair of the Conseil du trésor presents the 2008-2009 Expenditure Budget information to the National Assembly in four volumes:

- > Volume I, Estimates and Annual Expenditure Management Plans of the National Assembly and Persons Appointed by the National Assembly, contains information on the National Assembly and the Public Protector, the Auditor General, the Chief Electoral Officer and the Lobbyists Commissioner, who are appointed by the National Assembly;
- > Volume II, Estimates of the Departments and Agencies, contains estimates of all government appropriations for the 2008-2009 fiscal year. It distinguishes between the expenditure budget and the capital budget. Appropriations are broken down by portfolio and by program;
- > Volume III, Annual Expenditure Management Plans of the Departments and Agencies, contains the yearly spending management plans prepared by each of the ministers;
- > Volume IV, Additional Information, provides additional expenditure budget information.

## 1. PURPOSE OF THE EXPENDITURE BUDGET AND APPROPRIATIONS

The 2008-2009 Expenditure Budget is tabled in the National Assembly to authorize the appropriations required for the fiscal year ending March 31, 2009. The appropriations pertain to the expenditures and the investments which are paid out of the consolidated revenue fund. According to one of the basic principles of our parliamentary system, the revenues collected by the government are paid into the consolidated revenue fund and no amounts can be withdrawn without the consent of the legislature.

To present all the relevant information to the legislature, Volume II Estimates of Departments and Agencies not only presents the appropriations subject to a vote by the National Assembly but also the permanent appropriations authorized under specific laws, and the appropriations already voted under prior appropriations legislation. Together, these appropriations allow for paying the expenditures and investments provided in the 2008-2009 Expenditure Budget.

## 2. CONTENTS OF VOLUME II OF THE 2008-2009 EXPENDITURE BUDGET

Volume II presents, in two sections, the appropriations for government departments and agencies. The first section consists of a summary of the expenditure budget and the appropriations for government departments and agencies, while the second presents the appropriations and expenditures for each of the departmental portfolios.

The presentation of the 2008-2009 Expenditure Budget reflects modifications to the budget structure of the 2007-2008 Expenditure Budget. These amendments concern the reorganization of programs or program elements and changes to the wording or numbering of certain programs or program elements. When applicable, the comparative 2007-2008 data has been adjusted to ensure consistency of the information presented.

### SECTION: SUMMARY OF THE EXPENDITURE BUDGET AND APPROPRIATIONS

This section presents the budget information for each of the departmental portfolios that appear in Volume II and for the National Assembly and the persons it appoints, the information for which is given in Volume I.

The section consists of summary tables of expenditures and appropriations, by portfolio and as a whole, according to various items, as follows:

- > The table "Expenditure Budget", which compares the 2008-2009 Expenditure Budget and the 2007-2008 probable expenditure;
- > The table "Conciliation between the Expenditure Budget and the Appropriations", which draws a link between the expenditure budget and the appropriations;
- > The table "Summary of Appropriations" presenting the breakdown of the appropriations by authorization method, namely, the appropriations to be voted by the National Assembly, the permanent appropriations and the appropriations already voted;

- > The table “Summary of Appropriations to be Voted for Expenditures Chargeable to the 2009-2010 Fiscal Year”, which illustrates, by portfolio and program, the appropriations covering a period of more than one year. The purpose of these appropriations, as well as their breakdown by program, element and supercategory, are indicated following the presentation of the programs for each of the portfolios concerned;
- > The table “Summary of 2008-2009 Appropriations that may be Carried Over in 2009-2010”, which details, by portfolio, the maximum amount of appropriations that can be carried over if there is an unused portion at the end of the fiscal year and if the conditions set out in Volume II of the 2008-2009 Expenditure Budget are met. Conditions for carry-over appropriations are specified, if applicable, at the bottom of the tables of appropriations for each program;
- > The table “Programs Involving Net Voted Appropriations”, which lists the programs for which a net voted appropriation is planned. The conditions for application of net voted appropriations are provided following the presentation of each portfolio concerned.

#### **SECTION: APPROPRIATIONS BY PORTFOLIO**

This section presents, for each of the portfolios, the expenditure and capital budgets and the appropriations planned in 2008-2009 compared to those of the previous fiscal year. The total staff level planned for 2008-2009 is also compared to that for 2007-2008. More specifically, the section consists of the following items:

- > A summary table presenting, by program, the reconciliation between the expenditures and the appropriations for the portfolio, showing the permanent, carry-over and already voted appropriations separately from the appropriations to be voted. A complementary table breaks down the expenditure and capital budgets into the different supercategories. The total staff levels for programs and special funds, if applicable, are also included;

For each program, a summary table presenting, by element, the reconciliation between the expenditures and the appropriations, showing the different types of appropriations separately. A brief description of the program objectives is also presented;

A complementary table presenting, for each element, the breakdown by supercategory of the expenditure and capital budgets;

The utilization of a net appropriation and of an appropriation covering a period of more than one year is specified, if applicable. Rules governing the transfer of appropriations from a provision, as well as conditions for carrying over program appropriations are also specified, as applicable;

- > A table “Transfer Appropriations”, presenting, for each of the programs, the planned expenditures in the supercategory “Transfer”, allotted by project. These expenditures are also broken down by beneficiary and category.

This section may also include, when applicable, the following tables:

- > A table “Net Voted Appropriation” indicating, for each program for which a net appropriation is planned, the forecast expenditures for the particular program, the revenues associated with the net appropriation and the application conditions;

- > A table “Appropriations to be Voted for Expenditures Chargeable to the 2009-2010 Fiscal Year” which specifies, by program and by element, the appropriations to be voted in 2008-2009 for expenditures planned in 2009-2010;
- > A table “Appropriations Allocated to Special Funds”, which specifies, by program, the appropriations allocated to special funds. These appropriations are also broken down by expenditure category. The total staff level allocated to the portfolio's special funds is also included.

### 3. TERMS APPEARING IN THE EXPENDITURE BUDGET AND CONDITIONS GOVERNING APPROPRIATIONS

#### EXPENDITURE BUDGET

The expenditure budget shows the forecast expenditures to be submitted to the National Assembly for a fiscal year.

The expenditure budget contains the forecast expenditures for the supercategories “Remuneration”, “Operating”, “Debt Service”, “Allocation to a Special Fund”, “Transfer” and “Bad Debts and Others”.

#### CAPITAL BUDGET OR CAPITAL

The capital budget includes disbursements forecast for the supercategories “Fixed Assets” and “Loans, Investments, Advances and Others”. Although they are not expenditures; loans, investments, advances and others are included in the capital budget because the disbursements they generate cannot be made without appropriations.

#### APPROPRIATIONS OR TOTAL APPROPRIATIONS

Appropriations are the amounts required by a program to pay the expenditures forecast in the expenditure budget and to proceed with the disbursements planned for in the capital budget. These appropriations authorize the government to obtain a maximum amount per program from the consolidated revenue fund for the payment of the fiscal year's expenditures and investments.

#### APPROPRIATIONS TO BE VOTED

Appropriations to be voted correspond to those expenditures and investments forecast for a given fiscal year that have not already been provided for by voted legislation. The permanent appropriations, appropriations already voted and carry-over appropriations are deducted from the total appropriations of a program to determine the appropriation to be voted.

The National Assembly votes appropriations by program in a manner that ensures that it is impossible to make rearrangements between programs. Departments can, during the year, make changes to the breakdown of any appropriations within a program, except those in the “Transfer” supercategory or the “Support” category in the “Allocation to a Special Fund” supercategory. In these cases, prior authorization from the Conseil du trésor is required.

The Conseil du trésor may, however, authorize a transfer of appropriations between programs in the same portfolio, within the limits set in the appropriations legislation. For 2008-2009, it will be proposed to the National Assembly that transfers between programs in the same portfolio may be authorized, provided that such transfers do not result in an increase or decrease of more than 10% in the amount of the appropriation voted for a program. It should be noted that appropriations allocated to provisions cannot be transferred between programs.

Any balance of appropriations at the end of a fiscal year is considered automatically lapsed if there are no conditions for its being carried over.

#### **NET VOTED APPROPRIATION**

With this mechanism, revenues collected continue to be paid into the consolidated revenue fund, in accordance with the current practice. However, under certain conditions, the legislation allows the appropriation authorized for a given program to be increased if the revenues associated with the net voted appropriation are higher than projected. On the other hand, if revenues are below those projected, the amount of expenditures that can be allocated to the program's appropriation must be reduced accordingly.

#### **COMPARATIVE APPROPRIATIONS OR 2007-2008 APPROPRIATIONS**

Comparative appropriations include the 2007-2008 Expenditure Budget appropriations, adjusted for variations in permanent appropriations.

The comparative appropriations reflect the changes that have been made to the structures of programs or portfolios for the 2008-2009 fiscal year. They also include supplementary appropriations as well as the appropriations carried over from 2006-2007 to 2007-2008. In the case of the revenues associated with the net appropriation, the comparative data presented are taken from the 2007-2008 Expenditure Budget.

#### **APPROPRIATIONS ALREADY VOTED**

Appropriations already voted result from appropriations, covering more than one year, voted during a previous fiscal year. The Public Administration Act (R.S.Q., c. A-6.01) allows for certain appropriations to cover a period of more than one year, without, however, exceeding three years.

#### **PERMANENT APPROPRIATIONS**

Contrary to the appropriations authorized annually by a vote of Parliament, permanent appropriations are authorized under specific laws and need not be voted on a yearly basis. In general, each act specifies that the amounts needed for the activities concerned by these acts are paid out of the consolidated revenue fund. The permanent appropriations presented indicate forecast expenditures. These appropriations will fluctuate during the fiscal year, to reflect the actual expenditure.

#### **CARRY-OVER APPROPRIATIONS**

Despite the provision whereby appropriations not used at the end of a fiscal year are considered lapsed, certain conditions allow for carrying over, at the end of the fiscal year, the unused balance of such an appropriation.

For a specific program, appropriations carried over for a fiscal year come from the unused portion of appropriations relating to this program for the previous fiscal year.

Generally speaking, the unused portion of the appropriation of a program may be carried over in 2009-2010, respecting its breakdown by supercategory at the 2008-2009 year-end closing, in an amount equivalent to up to 3% of the appropriation to be voted, excluding the "Transfer" and "Capital" portions. This type of carry-over is not permitted when appropriations of a program are increased through recourse to the Contingency Fund.

The forecast amount of carry-over appropriations is included in the program spending budget. This amount is not included in the appropriation to be voted, since it is part of the voted appropriations of the previous fiscal year.

### **PROBABLE EXPENDITURE**

The probable expenditure reflects the total expenditure forecast for the fiscal year ending. It reflects changes made to the program or portfolio structures for the 2008-2009 fiscal year.

### **EXPENDITURES NOT REQUIRING APPROPRIATIONS**

Expenditures not requiring appropriations include depreciation. Pursuant to the accounting reform, these expenditures may also include the consumption of goods and services acquired during previous fiscal years.

These expenditures do not necessitate an appropriation because they result from appropriations used previously for acquisition of fixed assets and supplies or services which will be consumed during the present or future fiscal years.

#### **> Depreciation**

Investments in fixed assets, including investments in informational resources, are capitalized. Depreciation is the amount charged to the expenditure for the fiscal year as a result of spreading the cost of the fixed asset over its useful life.

For the presentation of this Expenditure Budget, only depreciation is presented as an expenditure not necessitating an appropriation.

### **TOTAL STAFF LEVEL**

The staff level is expressed in terms of full-time equivalents (FTEs). An FTE represents the ratio between the work of an employee over the year and the work of an employee who has worked full time over the year.

For example, the FTE of a person who occupies a full-time position and who worked for the full year is equivalent to 1. The FTE of a person who worked part time, reduced hours or for part of the year only varies between 0 and 1. Finally, the FTE of a person who was on unpaid leave of absence for the entire year is equal to 0.

The comparative staff level includes the level shown in the expenditure budget for the previous year, changed where appropriate to reflect any modifications to program structure, transfers of positions between departments and recurring adjustments made during the fiscal year.

#### **ELEMENT**

An element is a more detailed subdivision of a program that may reflect various areas of intervention.

#### **PORTFOLIO**

A portfolio includes all of the programs of a department and of the budget-funded agencies that fall under the responsibility of a minister.

#### **PROGRAM**

A program includes the appropriations for implementing a coherent group of activities to accomplish objectives that can be accounted for. Appropriations are voted by program.

#### **PROVISION**

A provision is a program element for which the Conseil du trésor, under appropriation legislation, has the power to authorize the transfer of a portion of an appropriation between programs or portfolios, for the purposes and, if applicable, under the conditions set out in Volume II of the Expenditure Budget.

### **4. DEFINITIONS OF SUPERCATEGORIES**

The supercategories combine the categories used by the departments to account for their expenditures and investments.

#### **ALLOCATION TO A SPECIAL FUND**

This supercategory includes expenditures incurred by a department or agency to assume all or part of the expenditures charged to a special fund it administers, notably to ensure a financial balance.

#### **BAD DEBTS AND OTHERS**

This supercategory includes expenditures resulting from a change in the provision for bad debts and the provision for losses on financial initiatives guaranteed by the government.

#### **OPERATING**

This supercategory contains those operating expenditures incurred for the acquisition, rental and use of goods and services, and the depreciation of fixed assets. It excludes expenditure linked to remuneration.

## **FIXED ASSETS**

This supercategory is included in the capital budget. It includes the expenses incurred for the acquisition, construction, development and improvement of fixed assets. It also includes “Remuneration”, “Operating” and “Debt service” costs when they are incurred for investment in fixed assets.

## **LOANS, INVESTMENTS, ADVANCES AND OTHERS**

This supercategory is included in the capital budget. It contains such items as payments to be made to acquire certain assets. It includes the contribution of capital and advances granted to government agencies and corporations, the acquisition of shares or bonds of government corporations or other corporations, as well as loans granted to municipalities, non-profit organizations, or natural or legal persons in the private sector. This supercategory also incorporates advances for the establishment or operation of local funds, advances to government employees and payments for recording inventory or prepaid expenses. It also includes disbursements that do not involve expenditure; such commitments are posted to the net debt and the accumulated deficit.

For the current fiscal year, this supercategory includes the appropriations required following the accounting reform and the excess of expenditures over appropriations allocated to previous fiscal years. For more information on the amendments to the accounting policies, see the document “Update on Québec’s Economic and Financial Situation”, presented by the Minister of Finance on December 11, 2007, available at the following address: [www.finances.gouv.qc.ca](http://www.finances.gouv.qc.ca).

## **REMUNERATION**

This supercategory includes operating expenditures incurred for normal remuneration, overtime remuneration and certain other indemnities paid directly by the government to permanent and part-time employees and casual employees, such as students and seasonal public sector employees. It also includes the salaries and indemnities paid to members of the National Assembly, to judges and to members of the Sûreté du Québec. Lastly, it includes benefits and other contributions paid by the government in its role as an employer.

## **DEBT SERVICE**

This supercategory includes interest on the direct debt service, interest on the retirement plans account, depreciation of deferred charges and unrealized exchange gains and losses, exchange expenditures and debt management expenses. This supercategory is found only in the “Finances” portfolio.

## **TRANSFER**

This supercategory includes those expenditures paid out to provide beneficiaries with various forms of financial support. These expenditures do not constitute direct acquisitions of goods and services for the government.

## 5. DEFINITIONS OF CATEGORIES

The “Transfer” and “Allocation to a Special Fund” supercategories are subdivided into the following five categories:

### **CAPITAL**

For the “Transfer” supercategory, this category includes the acquisition of subsidized fixed assets, including the repayment of the principal on loans contracted for fixed assets.

For the “Allocation to a Special Fund” supercategory, this category includes depreciation of a fixed asset charged to a special fund.

### **OPERATING**

For the “Transfer” supercategory, this category includes the operating expenses, other than remuneration, of government agencies and corporations, and agencies in the education and health and social services networks.

For the “Allocation to a Special Fund” supercategory, this category includes operating expenses, other than remuneration, of a special fund.

### **INTEREST**

For the “Transfer” supercategory, this category includes the interest payments on loans contracted for fixed assets, when the debt service of a beneficiary agency, corporation, institution or establishment is partially or entirely assumed by the government.

For the “Allocation to a Special Fund” supercategory, this category includes the interest and other expenses inherent to a debt charged to a special fund.

### **REMUNERATION**

For the “Transfer” supercategory, this category includes the remuneration of the personnel of government agencies and corporations, including agencies in the education and health and social services networks.

For the purpose of the budget document presentation, this category also includes health professionals.

For the “Allocation to a Special Fund” supercategory, this category includes the remuneration of the personnel assigned to a special fund.

**SUPPORT**

For the “Transfer” supercategory, this category includes the financial support paid to beneficiaries, other than the support included within the same supercategory, in the “Remuneration”, “Operating”, “Capital” and “Interest” categories.

For the “Allocation to a Special Fund” supercategory, this category includes the payments intended to provide beneficiaries with various forms of financial support.

This program is designed to finance employment assistance measures. Emploi-Québec is Québec's public employment service responsible for labour market information, placement and active employment measures relating to the active labour market policy at the provincial, regional, local and sectorial levels. It is also responsible for the Act to promote workforce skills development and recognition (R.S.Q., c. D-7.1) and the Act respecting workforce vocational training and qualification (R.S.Q., c. F-5). It also promotes summer employment for students in the Public Services. Moreover, this program favours the mobilization and reciprocal commitment of all the players concerned by the operation of the labour market through the Pacte pour l'emploi.

\* The balance of appropriations transferred from this provision may be returned into it and be reused under conditions determined by the Conseil du trésor.

The objective of this program is to make financial assistance services accessible to all citizens who request them and demonstrate the need for them through the intervention of the Emploi-Québec network. More precisely, it allows individuals to receive assistance of last resort based on the difference between their resources and acknowledged essential needs. In addition it allows the Alternative jeunesse program to financially support young adults on a voluntary basis, who require financial assistance in order to encourage them to pursue activities which allow them to re-establish their personal, social and professional autonomy. The social assistance and support programs allow beneficiaries to receive personalized support and accompaniment with the objective of an adequate preparation for participation in a specific measure or in an employment assistance program. Moreover, this program contributes to the financing of community organizations corresponding with their overall mission and it provides the Cree Hunters and Trappers Income Security Board with the amounts required to support the traditional activities of members of that community. It also provides appropriations to finance the Fonds québécois d'initiatives sociales and allows for the conversion of financial assistance benefits into employment assistance measures.

\* The balance of appropriations transferred from this provision may be returned into it and be reused under conditions determined by the Conseil du trésor.

\*\* The appropriation to be voted for this program includes, outside of the amount presented above, an amount concerning expenditures chargeable to the 2009-2010 fiscal year appearing following the presentation of the programs of this portfolio.
