FOREWORD

The Public Administration Act (chapter A-6.01) requires the Chair of the Conseil du trésor to table in the National Assembly the expenditure budget for all departments and agencies. This sets out the estimates of the appropriations required over the course of the coming fiscal year, as well as the annual expenditure management plans prepared by each of the ministers.

In addition, the Financial Administration Act (chapter A-6) provides that a special funds budget is to be attached to the expenditure budget submitted to the National Assembly for approval of the expenditure and capital forecasts.

In this regard, the Chair of the Conseil du trésor tabled in the National Assembly in the fall of 2012 the following information concerning the 2013-2014 Expenditure Budget:

- **Message from the Chair of the Conseil du trésor and Additional Information;**
- **Estimates and Expenditure and Investment Plans of the National Assembly and Persons Appointed by the National Assembly;**
- **Estimates of the Departments and Agencies;**
- **Expenditure and Investment Plans of the Departments and Agencies;**
- **Special Funds Budget.**

In respect of his obligations, and to complete the information already presented, the Chair of the Conseil du trésor tables the following volumes in the National Assembly:

- **Annual Expenditure Management Plans of the National Assembly and Persons Appointed by the National Assembly;**
- **Annual Expenditure Management Plans of the Departments and Agencies;**
- **Complementary Information.**

These volumes complete the information relative to the previously published 2013-2014 Expenditure Budget. They therefore do not include adjustments that may be made by the Ministère des Finances et de l'Économie in updating the economic and financial situation of Québec.

COMPLEMENTARY INFORMATION

RESULTS OF CONSOLIDATED ENTITIES

1. RESULTS OF CONSOLIDATED ENTITIES IN 2013-2014

For the 2013-2014 fiscal year, the forecast revenues and expenditures of the consolidated entities are \$73,979.7 million and \$72,690.2 million respectively, before consolidation adjustments, for a favourable impact of \$1,289.5 million on the government's financial results. These results represent an increase of \$193.7 million compared to 2012-2013, which breaks down as follows:

- An improvement of \$129.4 million in the forecast results of special funds;
- A deterioration of \$44.4 million in the forecast results of extrabudgetary agencies;
- An improvement of \$100.0 million in the forecast results of the entities of the health and social services and education networks;
- An upward variation of \$8.7 million in the forecast results of defined-purpose accounts.

Results of Consolidated Entities in 2013-2014

(millions of dollars)

	2013-2014			2012-2013 ¹	
	Revenues	Expenditures	Net results	Probable results	Variation
Special Funds ²	11,745.0	10,503.4	1,241.6	1,112.2	129.4
Extrabudgetary Agencies	23,393.4	23,336.9	56.5	100.9	(44.4)
Health and Social Services and Education Networks	37,764.0	37,764.0	-	(100.0)	100.0
	72,902.4	71,604.3	1,298.1	1,113.1	185.0
Defined-Purpose Accounts ³	1,077.3	1,085.9	(8.6)	(17.3)	8.7
Results of Consolidated Entities⁴	73,979.7	72,690.2	1,289.5	1,095.8	193.7

¹ The data are presented in accordance with the 2013-2014 structure.

² Including the results of the Generations Fund.

³ The results of defined-purpose accounts are presented on a cash basis, which can lead to significant fluctuations based on cash inflows and outflows. The effect of consolidation adjustments is to adjust these results so that they can be presented on an accrual basis. After consolidation adjustments, the results of the defined-purpose accounts are balanced. The results of defined-purpose accounts are shown in Appendix 4.

⁴ The government results are presented before consolidation adjustments. These adjustments have the effect of eliminating inter-entity transactions within the government's reporting entity to the General Fund, harmonizing the accounting policies in use in the consolidated entities with those applied by the Government, and applying the appropriate reclassifications.

Forecasts of the results of extrabudgetary agencies and special funds take into account the impact of policies aimed at reducing administrative operating expenditures, as stipulated in the Act to implement certain provisions of the Budget Speech of 30 March 2010, reduce the debt and return to a balanced budget in 2013-2014 (2010, chapter 20).

Moreover, the results of the consolidated entities do not take into account the \$200.0-million reduction of expenditures in 2013-2014 that will be asked of them, as announced in the Budget of November 2012.

The changes to the list of consolidated entities and entities of the health and social services and education networks are presented in Appendix 1.

2. RESULTS OF SPECIAL FUNDS IN 2013-2014

The special funds show a forecast surplus of \$1,241.6 million before consolidation adjustments for the 2013-2014 fiscal year compared to an anticipated surplus of \$1,112.2 million in 2012-2013. This increase of \$129.4 million is largely due to the following factors:

- A negative variation of \$70.5 million in the net results of the Land Transportation Network Fund, resulting from a more rapid increase in operating expenditures than in revenues from fuel taxes and vehicle registration and driver's licence fees. This increase in expenditures is generated by the level of investments made under the Québec Infrastructures Plan;
- A forecast deficit of \$87.4 million in the Green Fund in 2013-2014 compared to a forecast deficit of \$150.4 million in 2012-2013. This improvement of \$63.0 million is mainly due to the additional revenues paid to the Green Fund in 2013-2014, including \$24.3 million from federal transfers for the Program for processing organic matter using biomethane and composting and \$30.0 million resulting from the coming into force of the Cap-and-Trade System for Greenhouse Gas Emissions;
- A deficit of \$35.6 million is forecast in the Labour Market Development Fund in 2013-2014, compared to a deficit of \$5.2 million in 2012-2013. This \$30.4-million reduction in the net results is explained by a decrease in revenues. The deficit will be financed by using the accumulated surpluses;
- The University Excellence and Performance Fund forecasts a \$2.4-million surplus in 2013-2014, compared to an anticipated deficit of \$9.2 million in 2012-2013. This \$11.6-million improvement is explained, in particular, by the delays in implementation of the Fund, with the result that certain expenditures initially forecast in the 2011-2012 fiscal year were made in the 2012-2013 fiscal year;
- A \$12.3-million deficit is forecast in the Sports and Physical Activity Development Fund in 2013-2014, compared to a \$2.1-million deficit in 2012-2013. This \$10.2-million deterioration of the results is essentially due to the forecast reduction of revenues from federal transfers for the funding of projects authorized under the Recreational Canada Infrastructure Program.

Results of Special Funds in 2013-2014¹

(millions of dollars)

	2013-2014			2012-2013	Variation
	Revenues	Expenditures	Net results	Probable results	
Land Transportation Network Fund	3,460.2	3,140.8	319.4	389.9	(70.5)
Green Fund	360.8	448.2	(87.4)	(150.4)	63.0
Labour Market Development Fund	1,043.0	1,078.6	(35.6)	(5.2)	(30.4)
University Excellence and Performance Fund	25.0	22.6	2.4	(9.2)	11.6
Sports and Physical Activity Development Fund	60.1	72.4	(12.3)	(2.1)	(10.2)
Other Special Funds ²	6,795.9	5,740.8	1,055.1	889.2	165.9
Results Before Consolidation Adjustments	11,745.0	10,503.4	1,241.6	1,112.2	129.4

¹ The results of the special funds are presented in Appendix 2.

² Including the results of the Generations Fund.

3. RESULTS OF EXTRABUDGETARY AGENCIES IN 2013-2014

The forecast results of extrabudgetary agencies show a surplus of \$56.5 million before consolidation adjustments in 2013-2014, compared to an anticipated surplus of \$100.9 million in 2012-2013. This \$44.4-million decrease from the forecast net results is largely due to the following factors:

- The Agence métropolitaine de transport forecasts a deficit of \$49.5 million for the 2013-2014 fiscal year, compared to a forecast deficit of \$27.4 million in 2012-2013. This \$22.1-million decrease in the results is explained by the increased pace of performance of the different projects funded by the Agence;
- La Financière agricole du Québec presents a surplus of \$53.1 million in 2013-2014, compared to a \$74.9 million in 2012-2013. This downward variation of \$21.8 million is mainly due to the anticipated impact of the new Growing Forward 2 agreement on the Québec agricultural risk management programs;
- The Agence du revenu du Québec has a balanced budget in 2013-2014, compared to a \$10.6-million deficit in 2012-2013. This improvement of the results is due to the use of the surpluses from the 2011-2012 fiscal year, taken into account in the Agence's compensation in 2012-2013.

Results of Consolidated Entities

Results of Extrabudgetary Agencies in 2013-2014¹

(millions of dollars)

	2013-2014			2012-2013	Variation
	Revenues	Expenditures	Net results	Probable results	
Agence métropolitaine de transport	413.3	462.8	(49.5)	(27.4)	(22.1)
La Financière agricole du Québec	742.3	689.2	53.1	74.9	(21.8)
Agence du revenu du Québec	1,072.3	1,072.3	-	(10.6)	10.6
Other Agencies ²	21,165.5	21,112.6	52.9	64.0	(11.1)
Results Before Consolidation Adjustments	23,393.4	23,336.9	56.5	100.9	(44.4)

¹ The results of the extrabudgetary agencies are presented in Appendix 3.

² Including, among others, the Régie de l'assurance maladie du Québec, for which the revenues and expenditures are \$10,810.8 million and the Prescription Drug Insurance Fund, for which the revenues and expenditures are \$3,420.9 million.

4. RESULTS OF THE HEALTH AND SOCIAL SERVICES AND EDUCATION NETWORKS IN 2013-2014

The results of the health and social services and education networks, before consolidation adjustments, present balanced results for the 2013-2014 fiscal year, compared to a \$100.0-million deficit in 2012-2013.

Results of Entities of the Health and Social Services and Education Networks in 2013-2014¹

(millions of dollars)

	2013-2014			2012-2013	Variation
	Revenues	Expenditures	Net results	Probable results	
Results Before Consolidation Adjustments	37,764.0	37,764.0	-	(100.0)	100.0

¹ The lists of all entities that are part of the health and social services and education networks can be found in Appendices 5 and 6.

5. EVOLUTION OF FORECAST RESULTS OF CONSOLIDATED ENTITIES IN 2012-2013

The forecast results of consolidated entities and defined-purpose accounts, before consolidation adjustments, are slightly lower than those presented upon the tabling of the 2012-2013 Expenditure Budget:

- The forecast results of special funds and extrabudgetary agencies have deteriorated slightly by \$3.0 million;
- The forecast results of entities of the health and social services and education networks remain at the same level;
- The results of defined-purpose accounts are down by \$5.7 million.

Evolution of Forecast Results of Consolidated Entities in 2012-2013

(millions of dollars)

	2012-2013		Variation
	Revised forecasts	Expenditure Budget	
Special Funds ¹	1,112.2	1,140.1	(27.9)
Extrabudgetary Agencies	100.9	76.0	24.9
	1,213.1	1,216.1	(3.0)
Health and Social Services and Education Networks	(100.0)	(100.0)	-
Defined-Purpose Accounts	(17.3)	(11.6)	(5.7)
Results Before Consolidation Adjustments	1,095.8	1,104.5	(8.7)

¹ Including the results of the Generations Fund.

More specifically, the main variations in the forecast results of special funds and extrabudgetary agencies, before consolidation adjustments, are due to the following factors:

- The forecast deficit of the Labour Market Development Fund decreased from \$34.7 million in the 2012-2013 Expenditure Budget to an anticipated deficit of \$5.2 million. This forecast deficit reduction of \$29.5 million is explained, in particular, by a decrease in expenditures for employment assistance measures;
- The \$22.3-million improvement of the results of La Financière agricole du Québec in 2012-2013 is due to the lower than forecast financial needs regarding the AgriStability and Farm Income Stabilization Insurance programs;
- The Agence métropolitaine de transport presents an additional deficit of \$21.6 million in 2012-2013, resulting from a revision of its accounting policies;
- A forecast deficit in 2012-2013 of \$150.4 million in the Green Fund compared to a forecast deficit of \$137.0 million in the 2012-2013 Expenditure Budget. This \$13.4-million deterioration is mainly due to the decrease in revenues, including a carry-forward in the payment of an anticipated federal transfer of \$13.7 million for the Program for processing organic matter using biomethane and composting;
- A forecast deficit of \$9.2 million in 2012-2013 in the University Excellence and Performance Fund, compared to a forecast surplus of \$2.8 million in the 2012-2013 Expenditure Budget. This variance of \$12.0 million is due, in particular, to the delays in implementation of the Funds, with the result that certain expenditures initially forecast in the 2011-2012 fiscal year were made in the 2012-2013 fiscal year;
- A deterioration of \$11.4 million in the Tourism Partnership Fund, which is mainly due to forecast commitments, in particular to the Development Plan for the Tourism Industry, funded from the cumulative surpluses of the Fund as at March 31, 2012;
- A \$10.7 million improvement of the results of the Commission des services juridiques, which is mainly explained by the increase in the subsidy during the year for expenditures related to mega-trials.

Results of Consolidated Entities**Evolution of the Forecast Results of Special Funds and Extrabudgetary Agencies in 2012-2013**

APPENDIX 1

CHANGES IN THE LIST OF CONSOLIDATED ENTITIES AND ENTITIES OF THE HEALTH AND SOCIAL SERVICES AND EDUCATION NETWORKS**EXTRABUDGETARY AGENCIES AND SPECIAL FUNDS**

Some extrabudgetary agencies and special funds were added or moved to other portfolios, changed status or no longer appear in the Expenditure Budget, although they did in 2012-2013.

A plus sign (+) indicates that an extrabudgetary agency or special fund has been added, while a minus sign (-) indicates that an extrabudgetary agency or special fund has been withdrawn.

Conseil du trésor et Administration gouvernementale

(-) Services Québec has been transferred to the "Emploi et Solidarité sociale" portfolio.

Conseil exécutif

(+) The Commission de la capitale nationale du Québec has been added to this portfolio.

Développement durable, Environnement, Faune et Parcs

(+) The Fondation de la faune du Québec has been integrated into this portfolio.

Développement économique, Innovation et Exportation

The "Développement économique, Innovation et Exportation" portfolio has been abolished.

(-) The Commission de la capitale nationale du Québec has been transferred to the "Conseil exécutif" portfolio.

(-) The Centre de recherche industrielle du Québec, the Québec Research Fund – Nature and Technology, the Québec Research Fund – Society and Culture and the Québec Research Fund – Health have been transferred to the "Enseignement supérieur, Recherche, Science et Technologie" portfolio.

(-) The Economic Development Fund and the Société du parc industriel et portuaire de Bécancour have been transferred to the "Finances et Économie" portfolio.

Éducation, Loisir et Sport

(-) The University Excellence and Performance Fund, the Institut de tourisme et d'hôtellerie du Québec and the Institut national des mines have been transferred to the "Enseignement supérieur, Recherche, Science et Technologie" portfolio.

Emploi et Solidarité sociale

(+) Services Québec has been added to this portfolio.

APPENDIX 1 (cont'd)

Enseignement supérieur, Recherche, Science et Technologie

(+) The Centre de recherche industrielle du Québec, the Québec Research Fund – Nature and Technology, the Québec Research Fund – Society and Culture, the Québec Research Fund - Health, the University Excellence and Performance Fund, the Institut de tourisme et d'hôtellerie du Québec and the Institut national des mines have been integrated into this portfolio.

Famille

(-) The Caregiver Support Fund has been transferred to the "Santé et Services sociaux" portfolio.

Finances et Économie

(+) The Tourism Partnership Fund, the Régie des installations olympiques, the Société du Centre des congrès de Québec, the Société du Palais des congrès de Montréal, the Economic Development Fund and the Société du parc industriel et portuaire de Bécancour have been integrated into this portfolio.

Justice

(+) The Access to Justice Fund has been added to this portfolio.

Ressources naturelles

(-) The Fondation de la faune du Québec has been transferred to the "Développement durable, Environnement, Faune et Parcs" portfolio.

Santé et Services sociaux

(+) The Health and Social Services Information Resources Fund and the Caregiver Support Fund have been added to this portfolio.

Tourisme

The "Tourisme" portfolio has been abolished.

(-) The Tourism Partnership Fund, the Régie des installations olympiques, the Société du Centre des congrès de Québec and the Société du Palais des congrès de Montréal have been integrated into the "Finances et Économie" portfolio.

DEFINED-PURPOSE ACCOUNTS

Regarding the defined-purpose accounts, seven new applications to the General Account for Training, Partnership and Organization of Special Events have been approved, in the following portfolios: "Ressources naturelles", "Santé et Services sociaux", "Sécurité publique", "Transports" and "Travail".

APPENDIX 1 (cont'd)

ENTITIES OF THE HEALTH AND SOCIAL SERVICES AND EDUCATION NETWORKS

Certain institutions of the health and social services and education networks have been added, have changed their name or no longer appear in the 2013-2014 Expenditure Budget compared to the 2012-2013 fiscal year:

- The Centre de réadaptation en alcoolisme et toxicomanie de Chaudière-Appalaches, the Centre de réadaptation en déficience intellectuelle Montérégie-Est, the Centre de réadaptation Ubald-Villeneuve, the Centre hospitalier affilié universitaire de Québec, the Centre Jean-Patrice-Chiasson/Maison Saint-Georges, the Centre Jellinek, CRDI Normand-Laramée, the Salvation Army Catherine Booth Hospital, and the Virage, Réadaptation en alcoolisme et toxicomanie have been withdrawn from the list of public institutions of the health and social services network;
- The Centre de réadaptation en déficience intellectuelle et en troubles envahissants du développement de Laval, the Centre de réadaptation en déficience intellectuelle et en troubles envahissants du développement de la Montérégie-Est, the Centre de réadaptation en dépendance de Chaudière-Appalaches, the Centre de réadaptation en dépendance de l'Estrie, the Centre de réadaptation en dépendance de l'Outaouais, the Centre de réadaptation en dépendance de Québec, and the Centre de réadaptation en dépendance Le Virage have been added to the list of public institutions of the health and social services network;
- Télé-université has been added to the education network's list of the Université du Québec and its constituents;
- The Douglas Hospital is henceforth named Douglas Mental Health University Institute.

GOVERNMENT CORPORATIONS ACCOUNTED FOR AT THEIR CONSOLIDATION VALUE

Hydro-Québec¹

Investissement Québec

Loto-Québec

Société des alcools du Québec

Société Innovatech du Grand Montréal

Société Innovatech du Sud du Québec

Société Innovatech Québec et Chaudière-Appalaches

Société Innovatech Régions ressources

¹ This corporation also performs fiduciary duties excluded from the government reporting entity.

PUBLIC SERVICE STAFF LEVEL

1. AUTHORIZED STAFF LEVEL ENVELOPE AND UTILIZED STAFF LEVEL

The total staff level envelope or the total authorized staff level forecast represents the maximum staff level that a department, an agency or a special fund must observe, while the utilized staff level represents the actual full-time equivalent (FTE) utilization.

The staff level appearing in the volume **Annual Expenditure Management Plans of the National Assembly and Persons Appointed by the National Assembly** and the volume **Annual Expenditure Management Plans of the Departments and Agencies** of the 2013-2014 Expenditure Budget corresponds to the total authorized staff level forecast.

Definitions related to the staff level are presented in Appendix 1 of this chapter.

2. VARIATION IN THE AUTHORIZED STAFF LEVEL ENVELOPE

For each fiscal year, the Conseil du trésor determines an authorized staff level envelope for each department and budget-funded agency, including special funds where applicable, as well as for extrabudgetary agencies and agencies performing fiduciary duties having personnel subject to the Public Service Act (chapter F-3.1.1).

DEPARTMENTS, BUDGET-FUNDED AGENCIES AND SPECIAL FUNDS

The total staff level envelope for departments, budget-funded agencies and special funds will be 48,377 FTEs in 2013-2014, up by 1,343 FTEs from the 2012-2013 Expenditure Budget; despite the impact of the non-replacement of one retiring employee out of two, on average, during the 2012-2013 fiscal year. The increase is due to additions of 1,613 FTEs allowed in 2012-2013 and 258 FTEs as of April 1, 2013, which are partially offset by the impact of 528 FTEs retirements.

The increase is spread mainly across the following portfolios:

- A net addition of 781 FTEs to the "Sécurité publique" portfolio, including:
 - 565 FTEs in the Department itself, mainly due to the increased number of inmates in correctional establishments, security in courthouses, new working conditions for correctional services employees and administration of assistance to public safety and fire victims;
 - 177 FTEs to the Sûreté du Québec, essentially for police services in Aboriginal communities and for the implementation and operation of the register of eligible enterprises under the Integrity in Public Contracts Act (2012, chapter 25).

Public Service Staff Level

- A net addition of 338 FTEs to the "Transports" portfolio to replace outside resources and improve expertise within the Department while cutting costs at the same time;
- A net addition of 285 FTEs to the "Santé et Services sociaux" portfolio to create the Health and Social Services Information Resources Fund, using employees of the Société de gestion informatique SOGIQUE.

EXTRABUDGETARY AGENCIES AND AGENCIES PERFORMING FIDUCIARY DUTIES HAVING PERSONNEL SUBJECT TO THE PUBLIC SERVICE ACT

Since the beginning of the 2012-2013 fiscal year, the total staff level envelope forecast for extrabudgetary agencies and agencies performing fiduciary duties having personnel subject to the Public Service Act (PSA), increased from 14,974 FTEs to 15,106 FTEs.

This increase of 132 FTEs is mainly due to a net addition of 108 FTEs to Services Québec as the result of a renewal of 129 FTEs for its customer relations centre.

Variation in the Authorized Staff Level Envelope (FTEs)

	Departments, Budget-funded Agencies and Special Funds ¹	Extrabudgetary Agencies subject to the PSA ²	Total
Total staff level envelope forecast in the 2012-2013 Expenditure Budget	47,034	14,974	62,008
Variations:			
Variations during the fiscal year	1,871	288	2,159
Impact of retirements	(528)	(156)	(684)
	1,343	132	1,475
Total Staff Level Envelope Forecast in 2013-2014	48,377	15,106	63,483

¹ The breakdown by portfolio is presented in Appendix 4.

² The breakdown by agency is presented in Appendix 5.

3. EVOLUTION IN THE UTILIZED STAFF LEVEL IN 2012-2013

In 2012-2013, the public service utilized staff level, which is presented in Appendix 6, is 64,089 FTEs, an increase of 1,341 FTEs over the 2011-2012 fiscal year. The increase is essentially due to additions to the total authorized staff level during the 2011-2012 and 2012-2013 fiscal years in relation to the needs listed above. The most significant increases are in the "Sécurité publique", "Transports" and "Santé et Services sociaux" portfolios.

APPENDIX 1

GLOSSARY

Utilized staff level: Number of regular and casual employees, expressed in full-time equivalents (FTEs), actually remunerated.

Total staff level envelope or total authorized staff level forecast: Maximum number of permanent and casual employees, expressed in FTEs, who can be remunerated. The Conseil du trésor annually sets an authorized staff level envelope for each department, agency and, if applicable, special fund.

Full-time equivalent (FTE): An FTE represents the ratio between the salary of an employee over the year and the salary of an employee who has worked full time throughout the year.

For example, the FTE of an employee who occupies a full-time position and who worked for the full year is equivalent to 1. The FTE of an employee who worked part-time, reduced hours or for part of the year only, varies between 0 and 1. Lastly, the FTE of an individual who was on unpaid leave of absence for an entire year is equal to 0.

2012-2013	48,647 ⁶	1,171	47,966 ⁷	1,227

¹ These figures are presented in accordance with the 2013-2014 budget structure, on a comparable basis.

² The total authorized staff level forecast does not take into account the addition of non-recurring staff levels authorized during the fiscal year, nor does it take students and interns into consideration.

³ The figures are adjusted to take into account the exclusion, in particular, of students, interns and regular personnel on early retirement.

⁴ The difference between the total utilized staff level forecast and the total authorized staff level forecast is mainly due to management agreements between the Ministers responsible and the Conseil du trésor, the use of leeway granted for the management of staff levels.

⁵ This staff level excludes the impact of the strike days that occurred during the 2005-2006 fiscal year.

⁶ This level correspond to the comparative staff level for 2012-2013 presented in Appendix 4.

⁷ This level includes a readjustment in order to make the figures comparable to those in the 2011-2012 fiscal year.

² Agencies performing fiduciary duties.

³ The total staff level envelope forecast for CARRA and the CSST in 2013-2014 reflects the total utilized staff level in 2012-2013.

APPENDIX 6**PUBLIC SERVICE UTILIZED STAFF LEVEL**

The public service staff level comprises personnel working for government departments and agencies, including agencies performing fiduciary duties, subject to the Public Service Act.

For certain budget-funded agencies only, it also includes personnel not subject to the Public Service Act, such as Sûreté du Québec police officers, judges, criminal and penal prosecuting attorneys, as well as personnel of the Commission des droits de la personne et des droits de la jeunesse and the Public Protector.

This staff level does not include students, interns and regular personnel on early retirement.

Breakdown of the Public Service Utilized Staff Level in 2012-2013

(FTEs utilized)

	Personnel subject to the Public Service Act	Personnel not subject to the Public Service Act	Total
Departments, Budget-funded Agencies and Special Funds	40,348	7,618	47,966
Extrabudgetary Agencies and Agencies Performing Fiduciary Duties	16,123	-	16,123
Total	56,471	7,618	64,089

2013-2014 EXPENDITURE BUDGET BREAKDOWN BY MAJOR CATEGORY AND BENEFICIARY

1. EXPENDITURE BREAKDOWN OVERVIEW

For the 2013-2014 fiscal year, the government expenditure budget amounts to \$72,391.8 million, of which \$63,791.0 million, or 88.1%, is allocated to program spending and \$8,600.8 million, or 11.9%, to debt service.

BREAKDOWN OF PROGRAM SPENDING BY CATEGORY

2013-2014 program spending is broken down mainly among the following categories:

- \$37,342.9 million, or 58.5%, related to remuneration expenditures;
- \$13,994.4 million, or 22.0%, for support expenditures for individuals, municipalities, businesses and other government partners;
- \$8,910.3 million, or 14.0%, concerning operating expenditures and other.

2013-2014 Expenditure Budget by Supercategory and Category¹ (millions of dollars)

	Categories					Total		
	Remuneration	Operating and Other ²	Capital	Interest	Support	\$ million	%	
Supercategories								
Remuneration	2,906.6	-	-	-	-	2,906.6	4.0	
Operating	-	2,430.4	-	-	-	2,430.4	3.4	
Transfer	34,131.3	6,488.6	9,055.0	2,411.2	1,096.8	13,014.5	57,142.4	78.9

Anticipated Lapsed Appropriations	-	(200.0)	-	-	-	(200.0)	(0.3)	
Program Spending	37,342.9	8,910.3	2,439.2	1,104.2	13,994.4	63,791.0	88.1	
%	58.5	14.0	3.8	1.7	22.0	100.0		
Debt Service	-	-	-	8,600.8	-	8,600.8	11.9	
Budget Expenditures	37,342.9	8,910.3	2,439.2	9,705.0	13,994.4	72,391.8	100.0	
Comparatives Expenditures in 2012-2013	36,163.6	8,881.7	2,344.9	9,034.4	14,134.1	70,558.7		

¹ The expenditure categories make it possible to present expenditures by type and relative importance. They are shown in Appendix 1. The breakdown of the expenditure budget by major category is presented by portfolio in Appendix 2.

² For 2012-2013, this also includes unexpended appropriations.

BREAKDOWN OF PROGRAM SPENDING BY BENEFICIARY

The main beneficiaries of program spending are health and social services establishments, with \$20,504.0 million, and educational institutions, with \$15,473.4 million; together, they account for 56.4% of total program spending.

The balance of the program spending, \$27,813.6 million, is divided among the following beneficiaries:

- \$6,956.2 million, or 10.9%, for health professionals;
- \$6,603.7 million, or 10.3%, for individuals;
- \$5,968.8 million, or 9.3%, for the departments;
- \$8,284.9 million, or 13.1%, for spending allocated to various other beneficiaries, such as businesses, municipalities, non-profit organizations, and government corporations and agencies.

2013-2014 Program Spending by Beneficiary¹

¹ Appendix 3 presents the breakdown of expenditures by beneficiary for each portfolio.

² Including non-profit organizations, and government corporations and agencies.

2. REMUNERATION EXPENDITURES

For the 2013-2014 fiscal year, remuneration expenditures are \$37,342.9 million, broken down as follows:

- 39.1% for health and social services establishments;
- 32.1% for educational institutions;
- 18.6% for health professionals;
- 10.2% for departmental staff and other beneficiaries.

An overall increase of \$1,179.3 million is forecast for remuneration expenditures, divided among the following sectors:

- An increase of \$951.0 million is forecast in the "Santé et Services sociaux" portfolio, mainly attributable to the increases in remuneration for health and social services network staff and for health professionals, as well as the variation in employer contributions;
- Growth of \$220.6 million is forecast in the "Éducation, Loisir et Sport" portfolio, mainly explained by the progression of staff salaries in the education network and by the impact of the government offer within the context of the renewal of collective agreements;
- Growth of \$42.4 million is forecast in the "Enseignement supérieur, Recherche, Science et Technologie" portfolio, mainly explained by the progression of staff salaries in the higher education networks and by the salary indexations stipulated in the collective agreements;
- In other departments and for other beneficiaries, the decrease of \$34.7 million is essentially due to the "Persons Appointed by the National Assembly" portfolio, because of the non-recurrence of expenditures for holding the general election on September 4, 2012.

3. OPERATING EXPENDITURES

Operating expenditures amount to \$9,055.0 million in 2013-2014 and break down as follows:

- \$4,625.6 million, or 51.1%, for health and social services establishments, and \$1,429.9 million, or 15.8%, for educational institutions;
- \$2,566.4 million, or 28.3%, allocated to the departments, and \$433.1 million, or 4.8%, allocated to other beneficiaries.

In 2013-2014, operating expenditures are down \$296.4 million compared to 2012-2013. The decrease is mainly due to the following variations:

- In the "Santé et Services sociaux" portfolio, the decrease of \$122.7 million results essentially from the abolition of the rule that an innovative drug must be reimbursed at its full price for 15 years after its entry on the list of medications, which terminates the government contribution to the Prescription Drug Insurance Fund;
- In the "Éducation, Loisir et Sport" portfolio, the decrease of \$116.4 million results mainly from refocusing of the equalization program, as announced in the 2013-2014 Budget Speech.

The operating expenditures of the budget-funded departments and agencies are \$2,566.4 million, down \$58.1 million from 2012-2013. This can be explained, in particular, by the non-recurrence of the expenditures for holding the general election on September 4, 2012 in the "Persons Appointed by the National Assembly" portfolio, and by an adjustment of the maintenance budgets and a reduction of the administrative expenditures in the "Transports" portfolio.

4. CAPITAL EXPENDITURES

Forecast capital expenditures increase by \$94.3 million, from \$2,344.9 million in 2012-2013 to \$2,439.2 million in 2013-2014.

Capital expenditures are allocated to the three types of intervention used by the Government: repayment of principal, subsidies for fixed assets, and capital expenditures of special funds.

EXPENDITURES FOR REPAYMENT OF PRINCIPAL

In 2013-2014, expenditures for repayment of principal on subsidized debt represent 91.8% of total capital expenditures.

These expenditures are \$2,239.7 million in 2013-2014, compared to \$2,145.8 million in 2012-2013. This represents an increase of \$93.9 million, which is mainly explained by a rise in authorized investments in the health and social services network and the education networks, and in those related to research projects. This rise is offset by a decrease in the "Affaires municipales, Régions et Occupation du territoire" portfolio, since the Société d'habitation du Québec has other funding sources, including federal funds and deferred contributions.

SUBSIDIES FOR FIXED ASSETS

Subsidies for fixed assets account for 7.1% of total capital expenditures in 2013-2014.

These subsidies amounted to \$171.5 million in 2013-2014 compared to \$165.4 million in 2012-2013, an increase of \$6.1 million. This variation is mainly attributable to an increase in the "Affaires municipales, Régions et Occupation du territoire" portfolio for the debt service associated with municipal infrastructure programs funded from the Québec Infrastructures Plan (QIP), which is offset by the decrease in the needs related to the amounts allocated to liquid manure storage structures under the Prime-Vert program in the "Agriculture, Pêcheries et Alimentation" portfolio and by the adjustment of assistance to the development of the Route Verte and assistance to rail transportation in the "Transports" portfolio.

These subsidies are primarily intended for educational institutions, businesses and other beneficiaries.

SPECIAL FUND CAPITAL EXPENDITURES

The capital expenditures for which the departments allocate money to special funds represent 1.1% of aggregate capital expenditures in 2013-2014. Thus, the departments, through their special funds, are the sole beneficiaries of these expenditures.

These expenditures are \$28.0 million in 2013-2014, compared to \$33.7 million in 2012-2013, a reduction of \$5.7 million.

¹ Includes expenditures in the "Capital" category of the "Transfer" and "Allocation to a Special Fund" supercategories.

5. INTEREST EXPENDITURES

For the 2013-2014 fiscal year, interest expenditures assumed by the Government amount to \$9,705.0 million, compared to \$9,034.4 million in 2012-2013.

INTEREST ON THE DEBT OF THE GENERAL FUND OF THE CONSOLIDATED REVENUE FUND

The 2013-2014 expenditures allocated to debt service are \$8,600.8 million, a \$684.1-million increase over 2012-2013.

This growth is due to the projected increase in interest rates, growth of debt and the impact of the returns of the Caisse de dépôt et placement du Québec on the income of the Retirement Plans Sinking Fund (this income is applied against the interest ascribed to the retirement plans).

INTEREST ON THE DEBT ATTRIBUTABLE TO PROGRAM SPENDING

Interest on the debt attributable to program spending decreased by \$13.5 million in 2013-2014, to \$1,104.2 million.

Most of the portfolios under consideration show an increase, which is explained by a forecast increase in interest rates. However, this increase is offset, in particular, by a decrease caused by the fact, for other portfolios, that many loans are coming due and are refinanced at a lower interest rate than for the previous period.

¹ Including the expenditures in the "Interest" category of the "Transfer" and "Allocation to a Special Fund" supercategories.

6. SUPPORT EXPENDITURES

Support expenditures encompass support and assistance programs intended mainly for individuals, non-profit organizations, businesses and municipalities. Nearly half the support expenditures are disbursed to individuals.

Support expenditures amount to \$13,994.4 million in 2013-2014, down \$139.7 million from 2012-2013, including:

- In the "Affaires municipales, Régions et Occupation du territoire" portfolio, a decrease of \$51.3 million, which is attributable to the reduction of the amount allocated to the Regional Development Fund and the expiry of certain support measures for the regions, as well as the decrease in the amounts transferred to Société d'habitation du Québec, since it uses other funding sources, including federal funds and deferred contributions;
- In the "Conseil exécutif" portfolio, a decrease of \$21.4 million, which is explained mainly by changes in the agreements made with the Aboriginal nations and communities and by the carry-forward of payments related to support programs for the metropolitan region;
- In the "Éducation, Loisir et Sport" portfolio, growth of \$26.1 million, which is attributable mainly to the indexation of school transportation costs and the addition of extra budgets announced in the 2012-2013 Budget Speech for the development of recreation and sports;
- In the "Emploi et Solidarité sociale" portfolio, a decrease of \$38.3 million, which is explained mainly by the anticipated decrease in the clientele for last-resort financial assistance programs and by optimization measures generating savings in employment assistance;
- In the "Famille" portfolio, an increase of \$56.6 million, which is mainly attributable to the costs of creation of new reduced-contribution childcare places in 2013-2014, the increase in salary costs and other benefits resulting from negotiations of the collective agreements with staff in childcare centres and from the costs of the agreements negotiated with the associations representing home day care providers;
- In the "Finances et Économie" portfolio, a decrease of \$62.1 million, which is explained essentially by revision of the assistance granted to businesses, including government mandates, and by reassessment of the priorities regarding initiatives concerning revenues;
- In the "Persons Appointed by the National Assembly" portfolio, a decrease of \$12.9 million, which is explained by the non-recurrence of the expenditures involved in holding the general election on September 4, 2012;
- In the "Relations internationales, Francophonie et Commerce extérieur" portfolio, a decrease of \$13.6 million, which is explained essentially by a repositioning of the export program, a restructuring of the payments to the Francophonie agencies and a revision of the funding of Les Offices jeunesse internationaux du Québec;
- In the "Ressources naturelles" portfolio, a decrease of \$21.1 million, which is explained mainly by the five-year funding plan for the "Forest" sector, which forecasts a decrease in funding by budget appropriations, offset by an increase in funding by royalties;
- In the "Santé et Services sociaux" portfolio, a \$60.3-million increase, which is due, in particular, to the increase in interprovincial rates and volumes of activity regarding hospitalization insurance outside Québec, to the increase in the budget for pre-hospital emergency services, and to the higher cost of drugs covered by the public prescription drug insurance plan;

- In the "Transports" portfolio, a decrease of \$16.5 million, which is explained, in particular, by an adjustment of assistance to the local road network and a change to the schedule of payments for assistance to adapted transportation for handicapped persons.

7. EXPENDITURES RELATED TO PROVISIONS FOR DOUBTFUL ACCOUNTS AND OTHER ALLOWANCES

Expenditures related to provisions for doubtful accounts and other allowances reflect variations in the provisions for doubtful accounts, the provisions for losses on financial interventions guaranteed by the Government and the provisions for losses on equity investments.

For the 2013-2014 fiscal year, these expenditures are up \$10.4 million to \$155.3 million:

- Expenditures attributable to variation in provisions for doubtful accounts remain stable at \$16.9 million;
- Expenditures related to other allowances are \$138.4 million in 2013-2014, a \$10.5-million increase over 2012-2013. This increase occurs essentially in the "Finances et Économie" portfolio and is explained mainly by the fact that a larger proportion of financial assistance to businesses will continue to be paid in the form of repayable contributions.

APPENDIX 1

NATURE OF THE EXPENDITURE CATEGORIES CONSIDERED IN THIS CHAPTER

Remuneration

Remuneration expenditures encompass the fees of health professionals and the salaries of employees of the health and social services network, the education networks and the public service, employer contributions to retirement plans, and employer contributions paid to the various established government plans and group insurance plans.

Operating

Operating and other expenditures include the support and administration expenditures of departments and agencies, including the Contingency Fund, those of the health and social services network and those of the education networks. Also included are the expenditures related to depreciation of fixed assets of departments and agencies, including information resources.

Capital

Capital expenditures include subsidized fixed assets and allocations to special funds to meet the commitments associated with their fixed assets. The Government subsidizes the cost of beneficiaries' fixed assets or repayment of the principal of loans contracted by its partners, as the case may be.

Expenditures for repayment of principal cover the funding of the Government's share with respect to the fixed assets subsidized by debt service. This type of intervention applies to capital expenditures by educational institutions, by health and social services establishments, by municipalities for public transportation and water treatment facilities, and by cultural institutions for cultural facilities.

For these sectors, completed capital projects are financed by long-term borrowing. The repayment schedule may extend over a 25-year period in some cases. To cover its share, the Government undertakes to repay all or part of the principal.

Interest

Interest expenditures include expenditures allocated to service subsidized debt. These are accounted for in program spending and in expenditures to pay interest on government debt.

Support

Support expenditures include various other subsidies intended to provide different forms of financial assistance to individuals, businesses, government and parapublic agencies, and to other government partners.

² Including non-profit organizations and government corporations and agencies.

ENVIRONMENTAL LIABILITY

1. ADOPTION OF THE ACCOUNTING POLICY

In 2007, the Gouvernement du Québec adopted a new accounting policy in relation to environmental liability. Pursuant to that policy, the obligations resulting from the remediation of contaminated land under the Government's responsibility, or probably under its responsibility, are recorded as an environmental liability as soon as contamination occurs or as soon as the Government is informed of it.

Given the difficulties inherent in evaluating this liability, the policy provided for a transition period ending March 31, 2011, during which the Government's obligations recorded as existing as at March 31, 2006 were applied against the accumulated deficits. It should be noted that for the health and social services network and the education networks, the contamination must have occurred before March 31, 2008.

2. ESTABLISHING ENVIRONMENTAL LIABILITY

A provision for environmental liability has been included in the "Conseil du trésor et Administration gouvernementale" portfolio since the 2006-2007 fiscal year in order to provide for payment of the remediation costs of contaminated lands existing as at March 31, 2006 (March 31, 2008 for the networks) and for which the Government assumes actual or probable liability.

For this purpose, the departments and public agencies concerned keep a permanent up-to-date inventory of the contaminated lands for which they are responsible. The information is recorded in separate files for each land, following the instructions of the Contrôleur des finances. The inventory of lands and the estimated costs of decontamination are updated on an annual basis so that the environmental liability variations can be taken into account.

In accordance with the accounting policy, annual variations have been imputed to the Government's accumulated deficits as at March 31, 2011, when the transition period ended. Starting with the 2011-2012 fiscal year, the annual variations are imputed to the current results of the fiscal year.

According to the Public Accounts, the Government's environmental liability as at March 31, 2012 was \$3,145 million, of which \$2,093 million was for lands for which it is responsible and \$1,052 million was for lands for which it is likely to be responsible. Most of these lands are under the responsibility of the Ministère des Ressources naturelles and the Ministère du Développement durable, de l'Environnement, de la Faune et des Parcs.

Evolution of Environmental Liability

(millions of dollars)

	March 31, 2007	March 31, 2008	March 31, 2009	March 31, 2010	March 31, 2011	March 31, 2012
Environmental Liability	463	789	931	1,776	3,169	3,145

3. CONTAMINATED LAND REMEDIATION PLAN

The Government intends to tighten up its management of environmental liability, and announced in its 2012-2013 Budget the implementation of the contaminated land remediation plan, with the objective of reducing its environmental liability for lands for which it is responsible by 50% over ten years; this would lead to a reduction of over \$1,000 million by 2021-2022.

As part of the plan, the Secrétariat du Conseil du trésor asked all departments and agencies concerned to send it an accounting of the work done during the 2011-2012 fiscal year for the contaminated lands for which they are responsible and a three-year plan of the decontamination work planned for 2012-2013 to 2014-2015. The Conseil du trésor did an accounting of the planning and follow-up of the work done by the departments and agencies concerned.

For the 2011-2012 fiscal year, studies on soil characterization and decontamination work worth \$44.7 million were carried out on over 1,000 lands for which the Government is responsible for remediation. These lands are mainly under the responsibility of the Ministère des Ressources naturelles and the Ministère du Développement durable, de l'Environnement, de la Faune et des Parcs.

For 2012-2015, the remediation work forecast in the three-year plans submitted by the departments and agencies concerned will amount to \$661.1 million, which accounts for 21% of the overall environmental liability estimated at \$3,145 million as at March 31, 2012.

In addition, during 2012-2013, a permanent coordinating committee was created to bring together all the stakeholders concerned with environmental liability and encourage them to work together on the various issues, concerns and orientations that are related to environmental liability.

2011-2012 Accounting and 2012-2015 Planning of Remediation Work

Total Work	44.7	141.2	189.0	330.9	661.1

APPENDIX 1

ACCOUNTING POLICY AND DIRECTIVES

The accounting policy adopted by the Conseil du trésor reads:

"The obligations resulting from the remediation of contaminated land under the Government's responsibility, or probably under its responsibility, are recorded as environmental liabilities as soon as contamination occurs or as soon as the Government is informed. An environmental liability includes the estimated cost of contaminated land management and remediation. The cost evaluation is based on the best information available and is revised annually.

Given the difficulties inherent in evaluating this liability, the Government's obligations, which are recognized until March 31, 2011 for contaminated land existing as at March 31, 2006, are applied against the accumulated deficit."

For the health and social services network and the education networks, the contamination must have occurred before March 31, 2008.

The Contrôleur des finances has also issued general directives on the application of this accounting policy to the departments and public agencies. The directives include the following:

Definitions

Environmental liability: the Government's obligation to third parties (population, parties to the contract, etc.) to remediate contaminated land. The Government's obligation may result from an actual or potential liability.

Such liabilities are in relation to contaminated land, and include buildings, infrastructure, equipment or containers for hazardous materials. Environmental liability do not include the remediation of buildings or equipment that present a danger that does not result from current or prior contamination of the soil, such as buildings insulated with products that contain asbestos.

Land: any location that is or has been used for mining, industrial, commercial or agricultural activities or residential, institutional recreational or public purposes. The word "land" includes the soil, underground and surface water, mining residue and residual materials. It also includes buildings, equipment, infrastructure and openings used for activities conducted on such land.

Contaminated land: land where the concentration of contaminants exceeds the levels set out in applicable legislation, regulations, policies and directives, or land that threatens immediate or future danger to the health or well-being of humans, public safety or the environment.

Remediation: measures that have been implemented to protect humans, the environment in general and property. Remediation consists of eliminating or controlling the contamination so that the land can be safely reused, or restoring it to a state that complies with applicable legislation, regulations, policies and directives. Remediation of land also means the redevelopment, restoration and protection of mining sites as prescribed by the Mining Act (chapter M-13.1).

APPENDIX 1 (cont'd)**Criteria for recognition and government responsibility**

Environmental liability has to be recognized during the fiscal year in which:

- It is determined that the land is contaminated, or is likely to be contaminated, and as soon as the Government has been informed; and
- It has been determined that the Government is responsible or is certain or likely to assume the costs of remediating such contaminated land; and
- The cost of such remediation can be reasonably estimated.

The responsibility of the Government depends upon the Government assuming the costs of remediation of contaminated land. This does not necessarily mean that the Government thereby legally acknowledges liability for the contamination itself.

The Government's responsibility for remediating contaminated land may be actual or potential. Potential responsibility may be likely, not very likely or indeterminable.

The Government is actually responsible when it has been clearly established and there is no way for the Government to avoid the obligation of remediating the contaminated land.

When the responsibility is determined to be potential, there is some doubt as to the existence of a government responsibility to remediate the land; this may arise in connection with identifying who caused the contamination, or when that entity is known but does not assume its responsibilities with regard to remediating the contaminated land, and the Government is therefore obliged to assume them.

Determining whether responsibility is potential or not depends on the likelihood that some future event will confirm the Government's responsibility for assuming the remediation costs. Potential responsibility is likely when there are strong presumptions that the person who is responsible for decontamination will not be able to do the remediation work.

Environmental liability is recorded for contaminated land when the Government is actually responsible or when there is likely potential responsibility.

Measurement

Environmental liability includes all costs directly related to the remediation of contaminated land such as:

- Costs of studies, plans and specifications;
- Cleanup costs (equipment and manpower);
- Costs of moving and disposal of equipment, contaminated property or contaminants;
- Costs of dismantling, abandoning or closing facilities;
- Costs for follow-up and maintenance resulting from decontamination after land has been remediated.

Environmental liability must be revised annually.

APPENDICES

APPENDIX A

2013-2014 EXPENDITURE BUDGET BY MISSION

Government budget expenditures are broken down into six major government missions, namely: Health and Social Services, Education and Culture, Economy and Environment, Support for Individuals and Families, Administration and Justice, and Debt Service.

Three missions account for more than three quarters of budget expenditures:

- The Health and Social Services mission is 42.9% of budget expenditures;
- The Education and Culture mission, representing 23.6% of budget expenditures;
- The Debt Service mission, which accounts for 11.9% of budget expenditures.

2013-2014 Expenditure Budget – Breakdown by Mission¹

¹ Excluding anticipated lapsed appropriations and savings to be achieved by subsidized consolidated entities.

Anticipated Lapsed Appropriations	(200.0)	-	(150.0)	-	-
Unexpended Appropriations	-	(614.6)	-	-	-
Mission Total	72,391.8	70,558.7	70,558.7	68,850.5	67,061.6

Notes: Figures are rounded and the sum of the amounts recorded for each program may not correspond to the total.

Data for the 2012-2013 expenditure budget correspond to 2012-2013 comparative expenditures presented in volume "Estimates of the Departments and Agencies" of 2013-2014 Expenditure Budget.

Program spending by mission is presented in accordance with the 2013-2014 budget structure. Moreover, part of the expenditures of the Ministère des Transports has been adjusted in order to take into account the creation of the Land Transportation Network Fund in 2010-2011.

APPENDIX B

ECONOMIC AND BUDGETARY INDICATORS

This appendix presents the evolution of principal economic and budgetary indicators in Québec since the 1999-2000 fiscal year over a period of 15 years. It is composed of the three tables presenting:

- Evolution of program spending, debt service as well as budget expenditures;
- Change in certain specific indicators for Québec;
- Expenditures by portfolio.

B.1

Evolution of Program Spending, Debt Service and Budget Expenditures

	Program spending		Debt service		Budget expenditures ¹	
	\$ million	% variation	\$ million	% variation	\$ million	% variation
1999-2000	36,002	1.8 ²	7,035	2.6	43,037	6.4 ²
2000-2001	38,317	6.4	7,248	3.0	45,565	5.9
2001-2002	40,074	4.6	6,930	(4.4)	47,004	3.2
2002-2003	41,834	4.4	6,804	(1.8)	48,638	3.5
2003-2004	43,327	3.6	6,850	0.7	50,177	3.2
2004-2005	45,452	4.9	7,035	2.7	52,487	4.6
2005-2006	46,765	2.9	7,042	0.1	53,807	2.5
2006-2007	49,022	4.8	7,185	2.0	56,207	4.5
2007-2008	51,774	5.6	7,160	(0.3)	58,934	4.9
2008-2009	55,197	6.6	6,639	(7.3)	61,836	4.9
2009-2010	58,215	5.5	6,240	(6.0)	64,455	4.2
2010-2011	59,978	3.0	7,084	13.5	67,062	4.0
2011-2012	61,503	2.5	7,348	3.7	68,851	2.7
2012-2013 ^F	62,642	1.9	7,917	7.7	70,559	2.5
2013-2014 ^F	63,791	1.8	8,601	8.6	72,392	2.6

¹ Budget expenditures exclude consolidated entities. Moreover, part of the expenditures of the Ministère des Transports has been adjusted in order to take into account the creation of the Land Transportation Network Fund in 2010-2011.

² Rate corrected to exclude, on the one hand, the impact of the Canada-Québec Labour Market Agreement, which came into force in 1998-1999, for an amount of \$595.6 million, and, on the other hand, the impact of extraordinary expenditures effected in 1998-1999 to implement the financial restructuring and consolidation plan for health and social services establishments, for an amount of \$1,007.0 million, and to improve the financial position of the universities, for an amount of \$170.0 million. Taking these expenditures into account, the growth rate of program spending would have been 1.8% in 1999-2000.

^F Forecast

B.2

Evolution in Certain Specific Indicators for Québec

	Population ¹ in thousands	GDP Growth rate ² %	Inflation rate in Canada ³ %	Program Spending		
				% of GDP	per capita

Sources: Secrétariat du Conseil du trésor for program spending data, Statistics Canada and Ministère des Finances et de l'Économie for economic data.

¹ Population as of July 1 of the fiscal year considered.

² The GDP is calculated on a nominal basis, taking the annual average for the calendar year ending three months before the end of the fiscal year considered. For the years before 2007-2008, the presented rates are estimate from the Ministère des Finances et de l'Économie.

³ For the calendar year ending three months before the end of the fiscal year considered.
